

TECHNICAL TRAININGS

COMSIP

organizes a technical training in instrumentation, control-command, electricity and mechanics. Putting our experience at your service, we adapt the program of each session to focus on the specific topics that interest you.

Our consultants adapt to the level and number of people you want to train to effectively provide them with the necessary skills and knowledge.

COMSIP trains specialists in a wide range of industries: **Oil & Gas, Nuclear, Renewable Energy, Infrastructure, Water, and Mining.**
